TECHNICAL PROJECT

EL CHARRO | Developer | July 2023 | https://elcharromexicanfood.netlify.app
- Implemented effective state management techniques in React to develop dynamic and interactive user interfaces
- Executed database functions and retrieved that data through effective utilization of SQL query language.
- Created the site using CSS, JavaScript, React, PostgreSQL.

FURNISHING & CO | Developer | June 2023 | still-tree-1700.fly.dev
- Developed a robust e-commerce website using React, Express, Node.js, and PostgreSQL, providing seamless user experience and efficient handling of large datasets.
- Implemented secure authentication and authorization mechanisms, ensuring user data privacy and safeguarding against potential security threats.
- Designed and optimized the database schema using PostgreSQL, improving query performance and enabling efficient data retrieval for enhanced website speed and responsiveness.

FITMATE | Developer | April 2023 | fitmate-app.netlify.app
- Designed a fitness application where users can log in, post fitness regimens, and view regimens from other users.
- Executed database functions and retrieved that data through effective utilization of SQL query language.
- Created the site using CSS, JavaScript, React, PostgreSQL.

ARCADE | Developer | April 2023 | tictactoe1122.netlify.app
- Built a Tic-Tac-Toe game using HTML, CSS, and JavaScript.
- Applied game logic to handle player's turn and computer's turn using event listeners and random number generation.
- Created functions to check winning conditions for rows, columns, and diagonals, and updated the winning statement and game state accordingly.

PROFESSIONAL EXPERIENCE

Freelance Work   Chicago, IL
Developer   July 2023-Present
- Collaborated with clients to understand their vision, goals, and branding requirements, translating them into functional websites.
- Communicated effectively with clients to provide project updates, address concerns, and ensure customer satisfaction.
- Ensured cross-browser compatibility and adherence to web standards for optimal website performance across various devices and platforms.

Chicago Public Schools   Chicago, IL
Contact Tracing Manager   October 2021-June 2023
- Managed a team of Contact Tracers responsible for 28 schools.
- Presented guidance and new protocols to network executives and school administrators.
- Developed interpersonal skills and the ability to interact professionally with a diverse set of people about a sensitive topic.
- Mitigated issues by case prioritization and conflict resolution during Covid-19 surges.
- Trained Contact Tracers on navigating ServiceNow and other program developments.

Lou Malnati's   Chicago, IL
Driver   August 2020-September 2021
- Managed situations with historically difficult customers while maintaining a high level of customer service.
- Communicated and coordinated with staff and managers to ensure the highest level of service.
- Aided in translation between management and cooking staff when there was a language barrier.
